PROCEDURE FOR CLEANING CARPETED STAIRS

Tools & Materials Needed:

1. Vacuum
2. Extractor
3. Brush
4. PreSpray shampoo
5. Gloves and goggles

Procedures:

Put on gloves and goggles.

1. Vacuum the stairs thoroughly.
2. Set up the extractor with clean, hot water. Always work from the top of the stairs down.
3. PreSpray top stair. Agitate with brush and rinse with clear water through the extractor.
4. Repeat this procedure until all stairs are clean.
